SECURITY
<input type="checkbox"/> Score operational windows and doors <input type="checkbox"/> Conduit
OTHER
<input type="checkbox"/> Window and door locations

This start-up sheet is an invaluable tool intended to assist the various trades that interface with Omni Block. Typically, at a pre-construction meeting, the mason requests from the other sub-contractors their needs and communicates to them how he plans to address them. This meeting 'of the minds' is critical and greatly improves the overall continuity of construction.
